

Test CEnT-S 2026 – update

Since last March, our University has introduced the new **CEnT-S tests** by CISIA. These tests will be administered **exclusively in person** at the Engineering Department Library reading room (90 workstations).

- **Map (Italian):** [Aula CEnT-S](#)
- **Map (English):** [CENTs venue](#)

Please note that CEnT-S tests will be held **only** on the **7 dates** of the 2026 CISIA national calendar (listed at the bottom of this email) during a **single afternoon session**. While CISIA may add further dates, we cannot guarantee any additional sessions for 2026 at this time.

We would like to remind students enrolled for the **2025/26** academic year of the following:

- **Mandatory Requirement:** You must undergo the initial knowledge assessment by taking the test specified by your Degree Program (CdS) by **September 30, 2026**.
- **Consequences of Non-Completion:** Students who do not take the test by December 2026 will be registered as "repeating students" (*ripetente*) for the 2026/27 academic year. Consequently, you **will not be allowed** to take second-year exams in 2027.
- **National Changes:** As of 2026, all Italian universities have replaced English TOLC-E, F, and I with the **CEnT-S** (CISIA English Test - Sciences). The administration of English TOLCs has been permanently suspended nationwide since December 2025.
- **English-Taught Courses:** If your degree program is taught in English, **only** the results of English TOLC or CEnT-S are valid for the initial knowledge assessment; TOLC tests taken in Italian **will not** be accepted.
- **National Validity:** CEnT-S results are valid nationwide. Students may take the test at **any other university**, either in person or remotely (the "@CASA" or "@HOME" mode).
- **2026 Availability:** For the remainder of 2026, the CEnT-S can only be taken during the **7 national dates** set by CISIA for all universities.
- **Registration:** Registration typically opens two months before each date and closes at least two weeks prior to the exam.
- **Recommendation:** We strongly advise you to **book well in advance** and regularly check the national calendar for available dates and registration deadlines.
